

Status of Digital Parcel Development in Massachusetts

Massachusetts
Geographic
Information
System

Massachusetts Executive Office of Environmental Affairs - 2005

MassGIS is the Commonwealth's Office of
Geographic and Environmental Information

Commonwealth of Massachusetts

Mitt Romney, Governor

Kerry Healey, Lieutenant Governor

Stephen R. Pritchard, Secretary

Level I&II standards were created by MassGIS in an effort
to insure compatability from town to town.

Various levels represents towns where digital parcel data in some form exists.

In development means that a conversion from paper to digital is underway.

Not Digital also covers unknown status.
